RECEIVED

MAR 29 2004

GROUP 3600

Sir:

Pursuant to the duty of disclosure embodied in 37 C.F.R. § 1.56, Applicant wishes to
 bring to the attention of the Examiner the following patents, publications and/or other
 information:

FOREIGN REFERENCES

DOCUMENT NUMBER	DATE	COUNTRY
DE 10 04 871	03/21/57	Germany
FR 1 300 937	08/10/62	France

This information has not previously been submitted in this application, and has not
 heretofore been cited by the Examiner. Copies of the cited items are enclosed in accordance
 with 37 C.F.R. § 1.98.

The identified information, taken alone or in combination with other art, provides information relating to the subject matter of the invention, but fails to teach, disclose or suggest the present invention. The filing of this Supplemental Information Disclosure Statement shall not be construed as an admission that the information cited is, or is considered to be, material to patentability as defined in § 1.56(b).

CONCISE EXPLANATION OF NON-ENGLISH REFERENCES

A concise explanation of the relevance of the non-English language prior art patents under 37 CFR §1.98(a)(3), as presently understood by the individual designated in §1.56(c) as most knowledgeable about the content of the information is set forth below.

DE 1 004 871

Disclosed is a connecting rod and piston pin arrangement that includes a number of additional components positioned between the connecting rod and the piston pin. Specifically, the inside diameter of the connecting rod receives a multi-component, hollow sleeve assembly. The innermost component of the hollow sleeve assembly is profiled for clearance at its opposite ends. The receiving inside diameter of the connecting rod is not profiled.

FR 1 300 937

Disclosed is a connecting rod and piston pin assembly that includes a liner positioned between the inside diameter of the connecting rod and the outside diameter of the piston pin. While the inside diameter of the liner is profiled in one sense, its curvature suggests a desire for more limited liner-to-pin contact and not to accommodate

piston pin deflection. In either case, the inside diameter of the connecting rod is not profiled.

The undersigned hereby certifies that each item of information contained in this Statement was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this Statement.

PETITION AND CERTIFICATION
UNDER 37 C.F.R. § 1.97(d)

Applicant hereby petitions the United States Patent and Trademark Office for consideration of the enclosed Supplemental Information Disclosure Statement. The undersigned hereby certifies that each item of information contained in this Statement was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this Statement.

In accordance with § 1.97(d)(1), no fee is believed to be required. However, the United States Patent and Trademark Office is authorized to charge any fee which is required to Deposit Account No. 23-3030, but not to include any payment of issue fees.

Respectfully submitted,

By James M. Durlacher
